INTERESTS

I like to use technology in different ways such as everyone enjoying it.
Programming and coding in languages such as [C#,C++]
Exploring new technologies and tools in software development
Participating in coding challenges

OBJECTIVE

As a software engineering student, I have developed a strong foundation in computer science principles, programming languages such as Java, C++. My experience includes projects in web development and database management. I am a quick learner and enjoy working on challenging projects that require critical thinking and problem-solving skills. My ultimate career goal is to become a successful software engineer and contribute to the development of innovative software solutions.

EXPERIENCE

● Websites Frontend

As a class project I work on different websites like* Fitness blenders

2021 -

By using HTML CSS

And complete Documentation

● Websites Frontend + Backend

As a class project I work on website like* Blood donation management system

2023 -

By using SQL and C#

And complete Documentation

EDUCATION

● University of Engineering and Technology New campus

Software Engineering

2021 - 2025

- CGPA- :3.146

ACTIVITIES

● TEDx society

Deputy Director in Communication

2023 - Now

As part of my communication responsibilities, I had to provide accurate information in my invitations, including the date, time, venue, agenda, and any necessary instructions. I needed to use polite language and make my invitations attractive to encourage people to attend.

● ACM society
